

SUPER BIOTECH GUY!

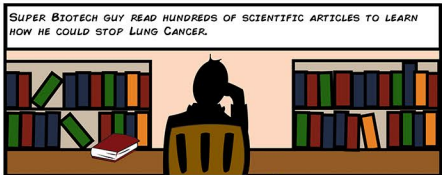

**INTRODUCING:
LUNG CANCER**

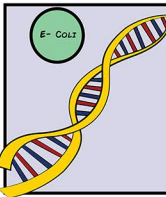

SUPER BIOTECH GUY WANTED TO HELP
SAVE PEOPLE FROM LUNG CANCER

HE DID RESEARCH WITH MICROSCOPES ON LUNG CANCER IN
HIS SPECIAL LAB AT SCHOOL FOR 3 MONTHS.

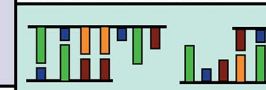

SUPER BIOTECH GUY READ HUNDREDS OF SCIENTIFIC ARTICLES TO LEARN
HOW HE COULD STOP LUNG CANCER.

HE LEARNED ALL ABOUT BACTERIA CALLED
E-COLI AND DNA.

AFTER HIS RESEARCH, HE FOUND OUT HE
COULD COMBINE THE GENES TO DO WHAT HE
WANTED AND DETECT LUNG CANCER!

IN A LAND "FAR" AWAY...

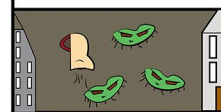

AIR POLLUTION
AND CIGA-
RETTES CAUSED
LUNG CANCER,
WHICH KILLED
MILLIONS OF
PEOPLE.

SMOKING DESTROYS
HEALTHY LUNGS,
MAKING THEM USELESS

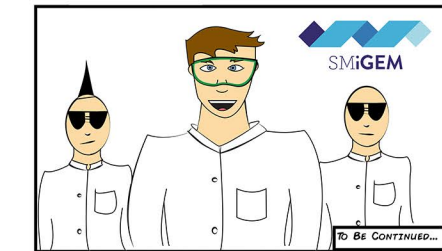

HIS NEW INVENTION WAS A NOSE
THAT SNIFFED OUT LUNG CANCER,
SAVING PEOPLE AROUND THE WORLD.

EVEN THOUGH THE NOSE
COULD DETECT LUNG CANCER,
HE WANTED A WORLD WITH NO
LUNG CANCER.

BUT HOW?

TO BE CONTINUED...
